Reminders & Reprises

IMPORTANT NOTICE:

Because we do not have contracts with individual patients, and it is a violation of HIPAA constraints for us to speak with them, **please do not have patients contact us by any means, whether phone, email or text.**

1099's for 2024

We cannot obtain 1099's from Medicare or the commercial insurance companies. Please confer with your tax advisor for any questions and/or information from insurance companies.

The insurance companies send the 1099's directly to you, the provider. If the address has changed, it should be updated with the insurance company.

Insurance

Questions regarding insurance benefits received Monday to Thursday after 2pm and after 12pm (noon) on Friday may not be processed until the following business day.

Please keep current with patient insurance. If we do not have the information, it is possible that we will be outside timely filing and claims will not be paid.

Billing

Billing must be sent to us on a monthly or bi-monthly basis. If for any reason your billing is older than two months, then you must request permission via email to send your claims.

Billing past two months will incur an additional fee for processing.

Medicare and Telehealth Update

We cannot provide any information regarding telehealth. **Discuss with your colleagues and organizations how best to code.**

Insurance Websites

During the past year, some insurance companies have not permitted us to obtain specific benefit or claim information. Those insurance companies are requiring the providers to register with the website. We will continue to give you any information available to us. If there is an issue, we will advise you.

Deductibles

Both in-network and out-of-network deductibles began again on January 1, 2025.

The updated Medicare deductible for 2025 is \$257.00.
